

Waterproof Green Grease

Waterproof Green Grease™ is a professional-grade, high performance synthetic polymer grease developed for mining, manufacturing, marine and off-road. Recommended for cars, trucks, boats, trailers, ATVs, motorcycles, mowers, farm equipment and implements – any application up to 500° F.

Ideal for general chassis lubrication, including U-joints, tie-rod ends, upper and lower A-arms, CV-type driveshafts, ball/roller and sealed-for-life bearings. Handy for hinges, pool equipment, seals, gaskets, O-rings and more. Used in extreme environments for over 35 years, Green Grease lasts longer than ordinary grease, provides superior parts and equipment protection, and is compatible with lithium and petroleum-based greases.

- **Exceptional operating temperature range:** Green Grease meets or exceeds major manufacturer performance requirements.
- **Tenacious synthetic polymers** resist high impact, shock loads, wash-out and centrifugal separation.
- **Special EP compounding** helps prevent wear under heavy-duty conditions.
- **Waterproof:** Green Grease acts as a rust preventative and protects bearings, seals and open gears against costly wear. Repels fresh water or saltwater!

Specifications:

NLGI GRADE #2	
COLOR: Green	BASE TYPE: Mixed Complex
OPERATING TEMPERATURE: -20° F to 500° F	DROP POINT: Over 500° F
TIMKEN OK LOAD: 80 Lbs.	FOUR BALL E.P. WELD LOAD KG: 800 Kg. +

Packaging:

14 oz. Green Grease	Description	SKU No.
14 oz. cartridge	Single plastic cartridge	SKU 101
3-14 oz. 3-pack	3 plastic cartridges	SKU 103
10-14 oz. 10-pack	10 plastic cartridges	SKU 1003
50-14 oz. 50-pack MP Case	50 plastic cartridges	SKU 1503

3 oz. Green Grease

3-3 oz. 3-pack	3-3oz. Mini cartridges	SKU 203
12-3-3 oz. 3-pack MP case	12 3-3oz. Mini cartridges	SKU 1203

Bulk Green Grease

35# Net Weight Pail	5 Gallon pail	SKU 105
120# Net Weight Keg	16 Gallon keg	SKU 120
400# Net Weight Drum	55 Gallon drum	SKU 155
